A B KISHORE KRISHNA

Kasargod,Kerala | +919746890854
abkishorek@gmail.com | linkedin.com/in/a-b-kishore-krishna-25941434b | github.com/abkishorek

SKILLS

Certification: Cyber Security(NPTEL), Basics of Python, Introduction to AI
Technical Skills: C, C++, Python, SQL, PHP, C#, CSS, java, javascript, .NET Framework

Cgpa : 8.31/10

EDUCATION

St Aloysius College(PG)(Currently Pursuing)
Master Of Computer Applications
St Aloysius College (Deemed to be university): April 2025
Bachelor Of Computer Applications(BCA)

PROJECTS

Disaster Alert and Communication System
The Disaster Alert System is a web-based platform that enables authorities to create and broadcast disaster alerts instantly. These alerts are displayed in real time to the public through a simple and accessible web interface. The system ensures quick communication, reduces misinformation, and helps people take timely preventive actions during emergencies.
AgroScan – AI Based Plant Disease Detection
AgroScan is an Android-based application that uses machine learning and TensorFlow Lite to detect plant diseases from leaf images. The system captures an image of a leaf, processes it using an image classification model, and predicts the disease type with a confidence score.
Smart Leave Management
Built a Student Leave Management System to automate the leave application and approval process in educational institutions.

ACTIVITIES

Hackathon :CodeSprint 2026
Ideathon :Innovision[top 6th] 2026
